

Top 10 things kiwis look for when they build

1 A reliable building company
For over 60 years Lockwood homes have been loved by people who live in them, and recognised by industry professionals for their outstanding craftsmanship and quality, both here and overseas.

2 Solid construction
Lockwood's world acclaimed building system with a patented X-profile, allows you to rest easy in your new home. Whatever Mother Nature throws at us – Lockwood homes stand strong.

3 Warmth
Lockwood's solid timber walls have natural insulation properties which means your home requires very little energy for heating, cooling and ventilation so stay cool in summer and warm in winter.

4 Customised design
Start with your own or use our ideas. Transform your vision into the quality home you have always dreamed of.

5 Innovative
Lockwood homes cannot be copied, they are unique and exclusively Lockwood.

6 Eco-friendly
Not only does wood take less energy to produce, but solid wood homes have the unique ability to reduce CO₂ in the atmosphere by safely storing carbon as part of its natural composition – indefinitely.

7 Maximum living space
Lockwood has perfected the fine art of utilising every last bit of space to give you all the room you need to stretch out and live your life.

8 Indoor & outdoor flow
Bring the outdoors in and the indoors out! It's the kiwi lifestyle. And Lockwood has been there all the way.

9 Low maintenance
Natural wood is much easier to maintain throughout its lifetime than conventional construction. This means real maintenance cost savings over time.

10 Value for money
Not just a house but a home for a lifetime. Enjoy living in your home knowing your investment will stand strong over many years.
